

May 3, 2010

WASHINGTON, DC - Today, U.S. Rep. Michael Arcuri (NY-24) announced that the Auburn Fire Department will receive \$135,441 in funding for operations and safety enhancements under the 2009 federal Assistance to Firefighters Grants (AFG) program.

The Auburn Fire Department will use this funding to purchase a new 250 kW generator to replace the 50 yr. old one currently in use, 7,000 ft of 2 ½ inch hose with adaptors and 8 new air packs with tracking devices installed.

"I am pleased that local fire departments are getting the resources they need to fight fires and protect the members of their communities," **said Arcuri**. "The purchase of additional rescue vehicles and the ability to make improvements to equipment and facilities for our rescue workers is critical. Providing the funding necessary to allow our local fire fighters to be best equipped to do their job makes them safer and contributes greatly to the overall safety of our community."

"This grant has allowed us to replace all of our worn out hose to be within compliance of national standards--something we haven't had the ability to do on our normal yearly budget," **said Auburn Fire Chief Mike Hammon**

. "We attended the Congressman's Fire Grant Workshop, including the most recent one in Cortland, and found it extremely helpful in tailoring our grant application towards current federal priorities to increase the likelihood we will get this much needed funding."

Today's announcement marks the thirteenth round of announcements for 2009 AFG funding. To date, a total of 25 fire departments in Arcuri's district have been awarded nearly \$1.8 million in funding through the 2009 AFG program.

Last month, Arcuri hosted a Fire Grant Workshop in Cortland, NY, lead by FEMA Regional Fire Grant Specialist David Gronsbell, to help emergency first responders in across Upstate New York apply for grants through the AFG Program. Since taking office in 2007, Arcuri has held 5 Fire Grant Workshops and assisted more than 90 local fire departments in securing

approximately \$6.8 million in funding through the AFG program.

The Department of Homeland Security's (DHS) AFG program awards grants in two areas. The first is the Operations and Safety Program Area in which funding is used for training, equipment, wellness and fitness and health and safety modifications to the facilities. The second is the Vehicle Acquisition Program Area would allow departments to purchase various types of rescue vehicles including ambulances, hazardous materials clean up vehicles, tankers and pumper trucks. DHS will continue to make funding announcements in the coming weeks.

DHS is now accepting applications for the Fiscal Year 2010 AFG program with a deadline of 5:00pm on May 28, 2010. Local fire departments interested in applying for AFG program grants or attending a Fire Grants Workshop are encouraged to call Arcuri's Utica, NY office at 315-793-8146.

Below is a list of other fire departments that have also received AFG funding in 2009:

- East Herkimer Vol. Fire Dept. No. 1 - Operations and Safety -- \$35,350
